DETAILED ACTION

Claims 26-35 are currently pending.

It is noted that claims 33-35 are improperly dependent on claim 26 as they are not further limiting and are directed to method of *in vivo* treatment. Therefore, for the purposes of the following restriction requirement., the claims are addressed as a separate group.

Restriction Requirement

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 26-33, drawn to method for stimulating cells *in vitro*, classified in class 435, subclass 02.
- II. Claims 33-35, drawn to method of administering hematopoietic cells *in vivo*, classified in class 424, subclass 93.7.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Groups I-II are directed to related methods. The related inventions are distinct if the inventions as claimed do not overlap in scope, are not obvious variants; and the inventions as claimed are either not capable of use together or can have a materially different design, mode of operation, function, or effect. In the instant case the methods have different mode of operation, function, and effect.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and because of their recognized divergent subject matter, and the necessity for non-

coextensive literature searches restriction for examination purposes as indicated is proper.

Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).
